

Flangeless LC Optical Adapters

Product Code: [LAN-2LCS/NF-xx](#)

Flangeless LC Optical Adapters

Description

Flangeless optical adapters are used in optical sockets and high-density patch panels.

The adapter body does not have side flanges with screw holes. The flangeless adapter is fixed in the patch panel's socket using spring-loaded brackets located on the sides of the body.

Flangeless versions are available for SC adapters and LC adapters with SC form factor. The absence of protruding parts of the body of the simplex SC adapter (or duplex LC adapter) allows them to be installed in modular patch panels using TWT-OK-SC inserts.

Model range

LAN-2LCS/NF-AM-MM	LANMASTER LC optical adapter, MM, SC form factor, flangeless, duplex
LAN-2LCS/NF-AM-OM3	LANMASTER LC optical adapter, OM3, SC form factor, flangeless, duplex
LAN-2LCS/NF-AM-OM4	LANMASTER LC optical adapter, OM4, SC form factor, flangeless, duplex
LAN-2LCS/NF-AM-SM	LANMASTER LC optical adapter, SM, SC form factor, flangeless, duplex
LAN-2LCS/NF-AM-APC	LANMASTER LC optical adapter, SM/APC, SC form factor, flangeless, duplex
