

FC optical adapter, simplex

Product Code: [LAN-FC-AM-xx](#)

FC optical adapter, simplex

Description

Adapters are installed in optical patch panel, wall or rack type, and optical sockets.

Adapters are pass-through sockets and are used for precise centering of connector tips, and for fixing connectors pressed against each other.

Adapters are available for multi-mode (black caps) and single-mode (white caps) connectors. In addition, adapters are produced for single-mode connectors with angled polished APC (green body).

FC adapter connects two cables terminated with FC connectors. Connector can be installed on a fiber in a cable, a pigtail, or a patch cord.

Supplied in a blister pack of 50 pcs.
