

Cable gland, IP68, gray

Product Code: [LAN-MBPG-xx-GY](#)

Cable gland, IP68, gray

Description

Plastic cable gland is designed for sealing cables with a diameter of 4 to 8 mm into boxes and housings with IP68 protection class to protect their internal space from dust, dirt, and moisture.

The cable gland is installed in holes with a diameter of 16 mm in housings and boxes with obligatory fixation from the inside with a fastening nut.

For correct cable entry, you must first put the clamping ring on it and only then insert it through the rubber seal into the inside of the box. It is necessary to fix the cable jacket by tightening the clamping ring after pulling the required cable length inside.

Made of ABS.

Protection class is IP68.

Color is gray (RAL 7046).
