

LANMASTER MPO optical adapter with flanges, black

Product Code: [LAN-MPO-AM-MM](#)

LANMASTER MPO optical adapter with flanges, black

Description

Adapters are pass-through sockets and are used for precise centering of connector tips and for fixing connectors pressed against each other.

Pass-through adapters provide connection of two MPO connectors, allow interconnecting MPO-MPO cable trunks or break-out cable assemblies.

Fixing adapters in the front panel of a patch panel is made by snap-on latches, you can use special screws to fix the adapters for additional reliability. Includes plastic caps to protect connectors from dust and dirt.
