Patch cords is category 6A and fully comply with ISO/IEC 11801 standards.

The material of the jacket and the molded boot of the patch cord is low-smoke halogen-free PVC - LSZH (Low Smoke Zero Halogen).

The junction between the RJ-45 plug and the cable is filled with a plastic to ensure a strong connection between them, such a connection is called molded.

Special side ribs are provided at the molded part of the plug to protect the locking latch of the RJ-45 connector from damage and breakage. This solution does not interfere with pressing the latch.
