

TWT 10" patch panel, 12 port, UTP, cat. 5E, 1U

Product Code: [TWT-PP12UTP-10](#)

TWT 10" patch panel, 12 port, UTP, cat. 5E, 1U

Description

Patch panels are the point of consolidation of telecommunication cable lines. Cables are terminated into RJ45 modules (ports) from the back side of the panel and this cable lines are connected to active equipment with patch cords from the front side.

Patch panels are a convenient way for providing users with various services from active equipment.

The patch panel is designed for mounting both in a 10" telecommunication cabinet and on a wall (using optional brackets).

The small size of the patch panel allows it to be used as a consolidation point or multi-user outlet. This panel can also be a commutation center for small offices or retail outlets.

Features:

- Modern design and easy installation
- Color wiring coding for T568B and T568A
- Paper label holders with transparent plastic cover
- Convenient grouping of ports by 6
- Digital labeling of ports on the front side
